PETITION FOR ACCEPTANCE OF COLORED DRAWINGS

Bellevue, Washington 98004

March 17, 2004

TO THE DIRECTOR OF THE PATENT AND TRADEMARK OFFICE:

A. Color Drawing Petition

Applicant has provided herewith three copies of the drawings for the above-identified patent application that include color images. These color images are necessary to illustrate the functionality of the present invention, as described and claimed in this patent application. If black and white images were used instead, the capabilities of the present invention would not be evident or appreciated.

The specification of the present patent application has been amended in the response filed herewith to contain the statutory paragraph required by 37 C.F.R. § 1.84(a)(2)(iii), immediately following the heading "Brief Description of the Drawing Figures," on page 5, lines 33-35.

Enclosed are three sets of drawings, including the color images, and check No. 7255 to cover the required petition fee of \$130.

For the reasons noted above, it is submitted that the color images in the drawing figures for this application should be accepted, and applicant hereby petitions the Director of the Patent and Trademark Office to grant this request.
